SKILLS

- **Languages:** Python, Java, JavaScript
- **Frameworks:** Node.js, HTML, CSS, Tailwind
- **Tools/Platforms:** Springboot, MySQL, Linux, MongoDB, Git, Github
- **Soft Skills:** Problem Solving , Team Player, Time Management, Communication

PROJECTS

- Blog Platform (Full-Stack Web Application) :** | [Github](#) Jan 2026 – Feb 2026
- Developed a full-stack Blog Platform using Spring Boot, React.js, and MySQL with secure authentication, RESTful APIs, and protected routing.
 - Implemented CRUD operations for posts, comments, likes, and user profiles using MySQL.
 - Built a responsive React.js frontend with interactive dashboards, dynamic blog feeds, reusable components, and modern UI/UX design
- Tech Stack:** Java, Spring Boot, React.js, MySQL, REST APIs, HTML, CSS, GitHub

- An Anonymous Chat App with E2E :** | [Github](#) | [Live](#) Jun 2025 - Jul 2025
- Engineered a secure real-time chat application using Node.js and Express.js with room-based architecture and one-time-use access codes, reducing session hijacking risks by 95% and maintaining sub-200ms latency for global users.
 - Implemented end-to-end encryption ensuring zero-knowledge message security; integrated REST APIs and WebSocket event-driven architecture for seamless full-stack communication.
 - Enhanced user engagement by 40% during testing by delivering features including message replies, emoji reactions, and responsive dark/light themes; deployed on Render with CI/CD pipeline managed via GitHub
- Tech Stack:** Node.js, Express.js, HTML, CSS, JavaScript, GitHub

- Food Waste Tracker :** | [Github](#) Mar 2025 – Apr 2025
- Developed a full-stack AI-powered web application using Python (Flask) featuring real-time data visualisation with and an image upload pipeline with API-driven freshness analysis and expiry estimation.
 - Integrated MongoDB for scalable NoSQL data storage and built RESTful APIs for seamless data interaction; leveraged Google Gemini API and Hugging Face Transformer models to power a dual-mode chatbot (80% AI, 20% human-assisted).
 - Designed a responsive UI with machine learning-based expiry prediction, enabling data-driven decision-making that reduced food waste tracking effort and demonstrated proficiency in end-to-end ML model integration.
- Tech Stack:** Python (Flask), MongoDB, Google Gemini API.

CERTIFICATIONS

- Oracle Cloud Infrastructure AI Foundations Associate - ORACLE | [Link](#) Sep 2025
- Certified in IBM Cybersecurity Fundamentals – IBM SkillBuild | [Link](#) Sep 2025
- Certified in IBM Data Fundamentals – IBM SkillBuild | [Link](#) Sep 2025
- Certified in Oracle Cloud Infrastructure Foundations Associate – ORACLE | [Link](#) Sep 2025
- Certified in FreeCodeCamp Responsive Web Design – FreeCodeCamp | [Link](#) Nov 2023

ACHIEVEMENTS

- **Selected for Smart India Hackathon (SIH) 2025 Grand Finale:** Oct 2025
Represented university team at the national-level finale and collaborated on developing an innovative technology solution to address a real-world problem.

EDUCATION

- Lovely Professional University** Punjab, India
- Bachelor of Technology - Computer Science and Engineering; **CGPA: 6.45** August 2023 - Present
 - **Holy Public School** Sikandra, Agra
 - Intermediate; Percentage: **67.33** April 2021 - March 2022
 - **Holy Public School** Sikandra, Agra
 - Matriculation; Percentage: **69.33** April 2019 - March 2020
